

# Text-to-Give

短信要捐的钱数到84321这个号码（例如5块）  
将收到一个回信，点击链接

**Send an amount** (example: **\$5** or **\$1.00**) to the short code **84321**. This is a shared short code used by other churches in your area.

And get the reply link and click it

# Text-to-Give

The screenshot shows a mobile browser interface for the Chinese Christian Church of Greater Albany (CCCGA). At the top, the status bar shows Verizon service, 3:29 PM, and 100% battery. The address bar displays 'cccga.churchcenter.com'. Below the address bar is a 'Donate' link with a heart icon. The main content area features the CCCGA logo and name in both English and Chinese, along with the phone number '(518) 268-9862' and email address 'donation@cccga.org'. A 'TEXT-TO-GIVE' section is highlighted with a dashed border. Below this, there are three input fields: 'MY PHONE NUMBER' with '(518) 268-9862' entered, 'MY FIRST TEXT-TO-GIVE DONATION' with '5' entered, and a dropdown menu showing '\$5 to the 一般奉献 General Fund' with a heart icon. The bottom navigation bar includes back, forward, share, and tabs icons.

用Albany , NY 搜索教会,找到CCCGA , 点击输入Email地址和姓名。

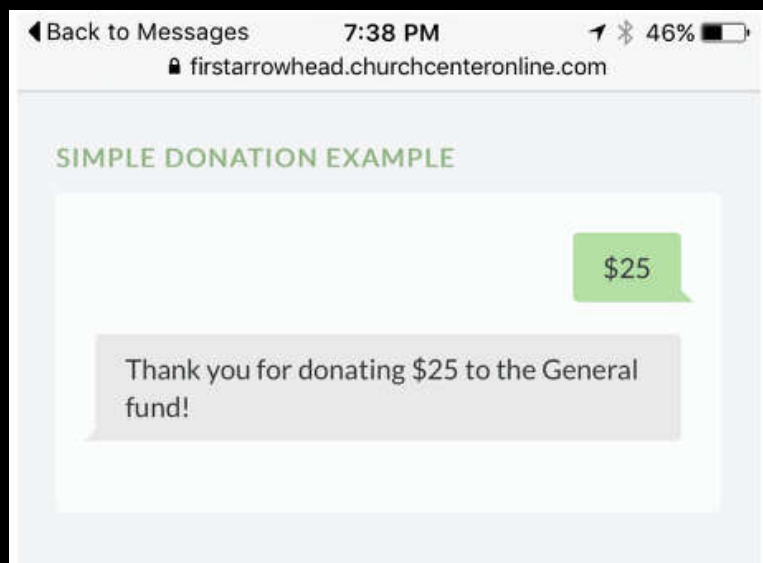

**Select your church.** (search using keyword Albany, NY) A list of churches in the area will be suggested. **Enter your email address** and, if prompted, your name.

# Text-to-Give

填写付款方式，如果你有帐号，可以登录帐号付款。

**Enter the payment method** you'd like to use for text-to-give. If you're already a donor and you've added a payment method before (say, a bank account for ACH or a credit card) then you can optionally log in to access your saved payment methods.

# Text-to-Give

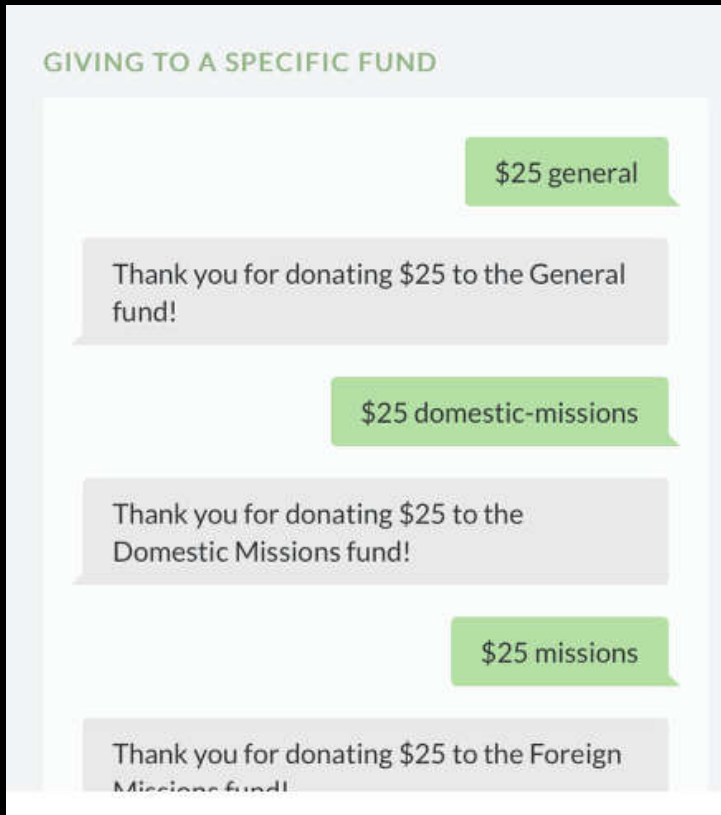

如果没有指明奉献基金，奉献自动到“一般奉献”

The initial donation, in most cases, will go to the default fund (usually the "General" fund).

# Text-to-Give

如果要奉献到特别基金，请指明基金名称。  
例如：\$25 missions.

However, donations *can* be directed to more specific funds using *keywords* (more on that below).

# Text-to-Give

短信REFUND – 用于返还奉献金额

短信MISTAKE – 用于通知错误的奉献

短信STOP – 用于停止奉献交易

短信START – 用于开始新的奉献交易

**REFUND** - Donors can issue this command within 30 minutes of donating to initiate an automatic refund. This isn't a cancellation, it's an actual refund (it's treated as an [actual refund](#)).

**MISTAKE** - Because ACH donations take so long (and can't be refunded until they "settle" in the bank system) the normal "refund" keyword doesn't work when donors use a bank account as their text-to-give payment method. Instead, they can use the MISTAKE keyword (as shown above). This keyword will cancel the donation before it enters the banking system. When a donation is cancelled this way, it's like it never happened.

**STOP/START** - The "stop" command immediately deactivates text-to-give for the sender. The "start" command will re-enable text-to-give for the sender.
